

miniZAPR®

The miniZapr brings even more mobility to on-site disinfection for all athletic surfaces including locker rooms, weight rooms, fitness areas and wrestling mats. Available in two models, 18" and 36" widths.

With powerful, on-board germicidal UVC lights, harmful micro-organisms such as MRSA, STAPH, HIV, and influenza are eradicated through DNA destruction, eliminating the potential for "Super Bugs".

- Powerful Germicidal UVC
- Destroys 99.9% of Harmful Micro-Organisms
- On-Board or Standard 120v Power

Reliable on-board power via generator or standard 120v wall outlets provide the most efficient, cost-effective sanitation method available in the industry.

The miniZapr is built on the same, high-quality fabrication methods people have grown to expect from GreensGroomer. Both models feature a powerful base module and hand-held unit.

Compared to other sanitation techniques, the GreenZapr is the most efficient, most cost-effective method available to the industry.

SPECIFICATIONS*

Model	860	960
Main Frame	12 ga steel	
Handle	One piece 1 inch round tube with height adjustment	
Length	31.5 inches	38 inches
Width	19 inches	48 inches
Weight	105 lbs.	205 lbs.
Running Gear	4 pneumatic tires (280/250-4) Ribbed 4-ply with bearings	4 pneumatic tires (280/250-4) Ribbed 4-ply with bearings, front gear with 360 degree swivel casters
Base Light Modules	1 Static 8 UVC bulb module w/ LED indicators and hour meter
