

# LITTERKAT®

The LitterKat is designed to sweep up light debris from the turf surface without displacing infill material. It's the perfect choice for keeping your synthetic sports field clean, safe and ready for action.

- **Fast & Effective Debris Pick-Up**
- **Easy Clean-Up & Wash Down Safe**
- **Recirculation of Infill Material**
- **Tow-Behind Magnet for Ferrous Objects**
- **Ground Driven for Low Maintenance**

With dual 12-volt vibrators in the collection baskets, the LitterKat quickly and easily redistributes infill while retaining sports field debris like paper, pen & pencils, rocks, shoe spikes, athletic tape and sunflower seed shells.

The collection baskets have a powder coat finish and easy access doors for clean-out. The LitterKat is also equipped with a tow-behind magnet for pickup of unwanted ferrous objects. The powerful 6-foot unit pulls objects from deep in the surface into the magnet – keeping dangerous objects like track spikes, bobby pins, safety pins and nails out of the infill material.

## SPECIFICATIONS

<b>Model</b>	760
<b>Frame Width</b>	73" All aluminum construction; 91" with wheels
<b>Drive Mechanism</b>	Direct drive gear with rigid gear guards
<b>Draw Bar</b>	56" x 3" diameter aluminum with adjustable hitch
<b>Length</b>	45 inches (97 inches overall including the draw-bar)
<b>Height   Depth</b>	20.5 inches   45 inches
